WATERLOO, NEBR.

1916 CONTRACT PRICE LIST OF VINE
SEEDS AND SEED CORN

ANNOUNCEMENT

The past seed year has been a peculiar one, and many disappointments have been met, yet we have made a fair delivery on most varieties. We hope the coming season may be more nearly normal. We appreciate the confidence you have reposed in us during the past, and will do our best to merit a continuance of the same. We grow for the **Seed Trade Only**. We send no Contract Price List to either Cannors or Picklers, neither have we any retail business to retain stocks for. We are here to serve your interest as Seed Growers, and as such we ask a fair proportion of your business.

An acreage will be planted of each variety to produce, under ordinary conditions, the various amounts required to fill all contract orders and in no instance will any carry-over stock be used to apply on contract orders, unless it may be mutually agreeable to our customers and ourselves. In case of shortages a sufficient reservation will be made for planting stock; all orders will then be filled by an equal pro rata division of the entire remaining crop, delivered to us by our various growers, all orders being treated alike.

Orders will be accepted for the growing of special stocks or new varieties at reasonable prices if planting stocks are furnished.

Orders for 25 pounds of a single variety of vine seeds will be filled at regular quotations; for orders of less than 25 pounds of a single kind, add two cents per pound.

TERMS:—Field corn, cash on receipt and examination; Sweet corn and vine seed, sixty days acceptance, or if discounted, 1 per cent in thirty days from date of shipment. All prices are based on delivery f. o. b., Waterloo, Neb., or Rocky Ford, Colo.

If you want handpicked grades of the above please specify it on the order.

From our warehouse we turn out three grades of corn: "Commercial" on which above prices are based; "Choice" at 20c per bushel advance over above price; "Gilt Edge" at a uniform price of \$1.50 per bushel. Write for particulars.

AIR DRIED CORN

We expect to deliver as dry corn as the season affords and at prices named will dry all corn showing over 16 per cent moisture without additional charge, but these prices do not carry artificial drying of corn showing 16 per cent or under of moisture. Our drying plant has a capacity of 800 bushels per ten hours. This has proved a valuable addition to our equipment and will be used at our own expense in case of excessive moisture. Customers wanting their corn dried to 14 per cent moisture or under will be charged 10c per bushel.
